Ammico
PASSION FOR EXCELLENCE

**Marine Piling - Dolphins - Jetties - Shore Protection &
Breakwaters - Outfalls and Intakes - Shallow Water Pipe
Laying - Fixed End Floating Pontoons**

INTRODUCTION

Ammico is a specialist marine and geotechnical contracting company with more than forty years international experience. Over these years, Ammico has developed expertise that is second to none in the following areas of marine and offshore work:

MARINE & OFFSHORE WORKS

- Installation of driven marine piles
- Installation of bored vertical as well as raked marine piles
- Installation of large diameter marine piles using reverse circulation drilling (RCD)
- Construction of jetties including substructure and superstructure
- Construction of dolphins including substructure and superstructure
- Breakwaters and groynes
- Outfalls & intakes
- Shallow water pipe laying
- Installation of fixed end floating pontoons
- Shore protection

PERFORMANCE USING STATE OF THE ART TECHNOLOGY

The company maintains a fleet of state of the art marine spread and various types of foundation and earthworks equipment. Ammico invests heavily each year in the purchase of new plant and in maintenance of the existing equipment to ensure it is in prime working order. The marine spread and associated equipment owned by Ammico includes:

- Jack up Barge 2000 Tons Capacity for working in up to 35m water depth
- Spud Barges
- Tugs Boats
- Support Vessels
- Crawler Cranes up to 250 Tons Capacity
- Reverse circulation drilling (RCD) rigs
- Fly drills
- Hydraulic Rotary Rigs
- Hydraulic Hammer BSP CG 240
- Hydraulic Hammers IHC S90 and S150
- Hydraulic Hammer Pilemer DKH-10
- Vibratory Hammers (ICE 416, 815 and 1412)

WE DELIVER

Ammico has over forty years experience in construction of bridges over water, jetty structures, dolphins, marine works, geotechnical contracting etc. and has completed a number of prestigious projects. Major marine projects executed include:

- Construction of jetty for Qatar Petroleum at NGL Plant, Mesaieed
- Construction of mooring and breasting dolphins at Cruise Terminal - Doha Port
- Installation of bored reinforced piles and steel tubular piles at Sports Marina - Doha port
- Installation of steel tubular piles for the overwater villas and restaurants at Cultural Village -Doha
- Piling and sheet piling works for Banana Island Resort -Doha
- Dredging under floating dock at Qatar Navigation Shipyard in Mesaieed
- Construction of temporary berth at the Pearl -Qatar
- Piling works for fixed walkway at Al Jassasia
- Silt removal works at Southern Container Berth, Ras Laffan Port Expansion Project
- Construction of breakwater for Port Expansion Project at Ras Laffan
- Installation of piles for jetty and light house at Doha Corniche

OUR CLIENTS

Our clients include major local and international organizations such as Supreme Committee for Delivery and Legacy, MOTC, JTC, UCC, Al Fardan, Boskalis, China Harbour, MEDCO, Jan de Nul, Redco Construction Almana, NBK/NICC, Qatar Petroleum, Qatar Gas, Ras Gas, Shell, Fluor, Snamprogetti, Chiyoda, KBR, Technip, JGC, Petrofac, CB&I, Hyundai Engineering & Construction, Qatari Diar, Msheireb Properties, Brookfield Multiplex Medgulf, SNC-Lanvin International, Salam Bounian, Iberdrola Ibernico, Vinci Construction, Qatar National Bank, Energy City, QDVC, CCC, Al Nakheel Agriculture and Trading.

HUMAN RESOURCE

Ammico has skilled and dedicated work force comprising of over one thousand persons. From more than fifteen nationalities, they are the backbone of the Ammico's fast track growth in recent years and are the real asset of the company.

The company has dedicated teams for planning, tendering, contracts, design, engineering, project management, execution, testing, QHSE, administration, accounts & finance, human resource (HR) and procurement.

SAFETY FIRST
